MACRO- Quality Cabling and Power Solutions

MACRO is the one step solution for quality cabling and power installation. Macro offers total solution of connections from Grid to Distribution Transformers and step down connections from ACB to MCB which includes all required Cables, Terminations, Joints, LV switch-gear, ACB / MCB including MCCB, Switch dis-connector, and Fuses. It offers customers with customized solutions for their total connecting requirements and installation service, from local and overseas sources. The company is tied up with many international companies who are leaders in their respective fields worldwide. Macro has been actively working with all major power utilities and local & Multinational Corporate entity in Bangladesh since early eighties.

QUALITY CABLING SOLUTIONS

An outstanding brand name in HV and MV Cables, having its presence in Bangladesh market for over 25 years. It is well accepted and used by Government power utility like DESCO, PGCB and REB in their system. Among 18 manufacturing facility around the World, Phelps Dodge's facility in Thailand features a Vertical Continuous Vulcanization (VCV) tower, a state-of-the-art cable manufacturing technology, one of the few of its kind in the world and with complete in-house facilities for testing power cable up to 400 kV.

General Cable Corp. headquartered in Kentucky, USA, a sale of US\$ 6.2 billion and over 13000 associates, is a world leader in cable manufacturing with 57 modern production facilities in 26 countries. It is one of the Fortune 500 companies, a world leader when it comes to developing, designing and manufacturing Extra High Voltage cable up to 550kV. As one of the largest wire & cable manufacturers, General Cable is the ONE Company connecting the World.

132Kv and 230Kv Transmission Line Projects of PGCB

QUALITY CABLING SOLUTIONS

INDO-Asian is a subsidiary of LEGRAND-France, the Global Specialist of Electrical and Digital Building Infrastructure. LEGRAND have their subsidiaries and offices in over 70 countries, covering a total of 180 countries with reported 2012 sales of €4.5 billion. It has got nearly 190,000 catalog items with a total workforce of over 35,000. Indo-Asian offers all electrical items step down to Transformers that is ACB to MCB including MCCB, Switch dis-connector and Fuses.

HGPT is a provider of turnkey solutions for all types of transmission lines up to EHV and substations in Malaysia and overseas. A good number of transmission lines of both 132 and 230 kV ratings have been installed by H.G Power on Turn-key basis in PGCB, Bangladesh. In house facility for design of transmission lines and manufacturing of towers and hardware fittings up to 500kV, allow them to offer custom made solution to different customer segments.

To ensure total quality of Electric system, proper installation is absolutely important. Macro Prokoushal with its service team offers quality cable laying, jointing and termination with support of its overseas partners. It offers manufacturer's certified technicians for MV and HV cabling system. Macro has earned the good confidence of reputed customers such as Aggreko U.K who runs number of rental power plants in Bangladesh.
